📍 ismailia , Egypt

PROFILE

Frontend Developer working with React and Next.js to build responsive and component-based web applications, Experience in integrating REST APIs, managing application state, and optimizing rendering performance, Focused on writing clean, reusable code using modern standards.

EDUCATION

Suez Canal University | 2024-2028

BSc in Computer Science - Faculty of Computer and information

Undergraduate,(2nd Year) | GPA : 3.23

INTERNSHIPS

ICPC SCU Community (Jan 2025 - May 2025)

Solved programming problems using C++, improving problem-solving and algorithmic thinking skills.

SEF Academy (June 2025 - Dec 2025) – Certification

Completed 120+ hours as Frontend Trainee of hands-on frontend training focused on React and modern JavaScript. Built and deployed 5+ real projects using component-based architectures, implemented state management and REST API integrations, and optimized rendering performance. Began backend with Node.js.

Training - AfaaqWare (Mar 2026 - May 2026)

Completed a frontend development training program at Afaaqware, mastering Next.js, TypeScript, and Tailwind CSS. Applied Clean Architecture and Atomic Design principles, utilizing TanStack Query and Postman for API integration within professional Git Flow and team-based workflows.

PROJECTS

E-Commerce Web App | Live | GitHub

Built a responsive e-commerce web app using Tailwind, React and Redux, featuring product listing, category filtering, and a fully functional shopping cart with real-time updates and state management.

Travel & Tourism Website | [Live](#) | [GitHub](#)

Built a static travel website using HTML and CSS, focusing on structuring web pages and implementing a clean and organized UI design.

Restaurant Ordering Website | [Live](#) | [GitHub](#)

Developed a responsive restaurant website using HTML, CSS, and Bootstrap with a focus on modern UI design and mobile-friendly layout.

Personal Portfolio Website | [Live](#) | [GitHub](#)

Built a personal portfolio website using React with a component-based architecture, featuring responsive design and organized sections to effectively present projects, skills, and contact information.

SKILLS

HTML , CSS

JavaScript / TypeScript

React / Next.js

Git / GitHub

Tailwind / Bootstrap
